

Year R: Our Learning

Friday 10th and Friday 17th July 2026

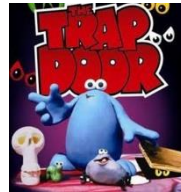

Messages for Parents/Carers –

This is the last home learning that we will be sending. We would like to **thank you** all so much for all that you have done to support your child as they start their Bassett Green education journey. We have adored seeing the fun and inventive ideas you have come up with to complete the challenges at home!

Phonics – on the reverse of this sheet are all the sounds and tricky words we have learnt this year. Please keep practising them over the summer ready for Y1.

This week we are thinking all about **Trapdoors and castles**. In your family can you complete some of these home learning challenges?

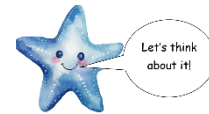

Terrific talk words

smuggle evade

grasp foe

dozing slink

Curious Crab

Can you make a castle at home? It could be a picture, a model using Lego, with sand on the beach, from a big big box or even one using tables and chairs in your house! If your castle had a trapdoor or a secret passage, where would you like it to take you?

Trying Turtle and Solving Starfish

In our maths learning this week we measured cars to make a car park using cubes or counters to measure with. We had to remember to add an extra cube to the length and the width to give the car extra space to open the doors. Can you make a vehicle park at home in the same way using your toy vehicles, trains or aeroplanes? Could you organise your vehicles so they can park in length order?

Our **phonics** the sound that we have been learning in school this week has been **air, ure, ear**

Our **tricky words** that we have been revising this week are **out, like** and **little**

Our **maths** learning this week has been about **length**.
